

PRESENTS

ADVANCES IN ANALYTICAL TECHNOLOGY

A Technical Workshop and Vendor Exhibition

Wednesday, April 4, 2007

Alberta Research Council
250 Karl Clark Road
Edmonton, Alberta

The Workshop entails a vendor show with technical presentations. There will be displays by instrument manufacturers and laboratory equipment suppliers featuring their new equipment currently on the market as well as other displays of interest to the laboratory community.

Workshop Program:

8:30	Registration and coffee
9:00	Greeting by host
9:15– 9:45	Mandel Scientific Presentation: <i>Improvements in Automated Efficiency: Nutrient Determination Using Direct Read Discrete Technology</i>
9:45– 10:15	CEM Presentation: <i>Overview of Microwave Sample Preparation for Digestion of Plant, Soil, and Fertilizer Samples</i>
10:15–10:45	Coffee & Visit Exhibits
10:45 – 11:15	Mettler Toledo Presentation: <i>Weighing the Right Weigh</i>
11:15 – 11:45	Lachat Presentation: <i>A Septum-Free Design for TOC Analysis: A Look at "Challenging" Sample Sets with Direct Injection</i>
11:45 – 12:15	Varian Presentation: <i>Greenhouse Gas Analysis by Gas Chromatography</i>
12:15 – 2:00	Stand up Lunch provided & Visit Exhibits
2:15 – 3:30	WEALA Annual General Meeting

Some of the Exhibits will include a representative from:

- ATS Scientific Inc.
- Anachemia Science
- K'(Prime) Technologies Inc.
- PerkinElmer LAS Canada
- Lachat
- Mettler Toledo Inc.
- Agilent Technologies Canada
- Varian Canada Inc.
- CEM Corporation
- Mandel Scientific

Please reply with attached registration form by **Monday March 26, 2007**.

Special thanks to participating Vendors for covering the registration fees. Early registration is necessary for catering requirements.

The Western Enviro-Agricultural Laboratory Association (WEALA) is a non-profit Association consisting mainly of analytical laboratories with common interests in promoting and improving the analytical chemistry industry. For more details about WEALA, visit our web site at www.weala.com
